# **Modular Jack Connectors for High-Speed LAN Transmission**

# TM21R Series

### Features

### 1. Supports High-Speed LAN Transmission

Meets requirements of TIA/EIA-568-B data wiring standard. Single port configuration meeting CAT5e and multiple port configuration meeting CAT5 transmission

As such, these products fully support Gigabit Ethernet (1000BASE-T) and Fast Ethernet (100BASE-TX) highspeed LAN transmission.

### 2. Built-in Optical Indicators

Optical indicators are integral part of the connectors saving space on customer's board.

Compared with LED type indicators, they do not emit any electrical noise.

#### 3. EMI protection

Metal shield covers the outer surfaces of the connectors assuring complete protection against electromagnetic interference.

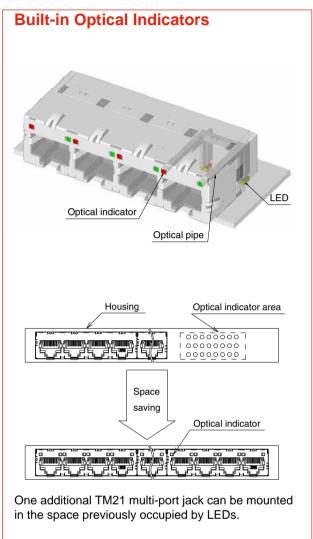

Built-in multiple shield and ground contacts assure reliable connection with the mounting panel as well as with the mating connector.

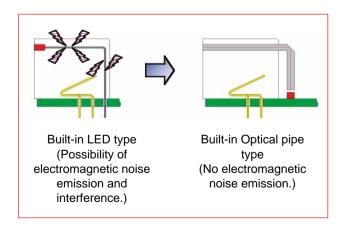

#### 4. FCC Standards

Meets requirements of FCC Title 47, Part 68, Subpart F.

# Applications

Telecom Hubs, Routers, Bridges and ATM Transmission Equipment, Ethernet Switches and Networking Equipment, Test and Measurement Equipment, Medical Diagnostic Equipment.
