

Product/Process Change Notice - PCN 15_0082 Rev. A

Analog Devices, Inc. Three Technology Way Norwood, Massachusetts 02062-9106

This notice is to inform you of a change that will be made to certain ADI products (see Appendix A) that you may have purchased in the last 2 years. Any inquiries or requests with this PCN (additional data or samples) must be sent to ADI within 30 days of publication date. ADI contact information is listed below.

Note: Revised fields are indicated by a red field name. See Appendix B for revision history.

PCN Title: ADG5204 and ADG5236 Redesign

Publication Date: 15-Sep-2015

Effectivity Date: 15-Sep-2015 (the earliest date that a customer could expect to receive changed material)

Revision Description:

Date Code effectivity change from 1519 to 1539

Description Of Change

Redesign of the ADG5204 and ADG5236 involving a layout change to improve Total Harmonic Distortion and Noise (THD+N) performance.

Reason For Change

With a high resistive load and low input voltages, there is a significant difference in THD+N with increasing supply voltage. The THD+N is improved with the new layout and doesn't have a supply voltage dependency.

Impact of the change (positive or negative) on fit, form, function & reliability

This transfer will not affect the form, fit, function, quality or reliability of the ADG5204 or ADG5236.

Product Identification (this section will describe how to identify the changed material)

The above changes will be effective from date code 1539 for both ADG5204 and ADG5236 generic parts.

Summary of Supporting Information

Qualification has been performed per ADI0012, Procedure for Qualification of New or Revised Processes. See attached Qualification Report Summary.
