

Product/Process Change Notice - PCN 21_0130 Rev. -

Analog Devices, Inc. One Analog Way, Wilmington, MA 01887

This notice is to inform you of a change that will be made to certain ADI products (see Appendix A) that you may have purchased in the last 2 years. Any inquiries or requests with this PCN (additional data or samples) must be sent to ADI within 30 days of publication date. ADI contact information is listed below.

PCN Title: LTC7821 Die Revision

Publication Date: 30-Jun-2021

Effectivity Date: 02-Oct-2021 (the earliest date that a customer could expect to receive changed material)

Revision Description:

Initial Release

Description Of Change:

Analog Devices, Inc. has made a minor change to the LTC7821 die to improve manufacturing yield and optimize device performance. The improvement in manufacturing yield is achieved through a change in the VSTBY circuit to ensure that INTVCC is able to start up. The optimization of device performance is achieved by tuning the sequencer timing's of the FETs power ON sequence

Reason For Change:

To improve manufacturability and optimize device performance.

Impact of the change (positive or negative) on fit, form, function & reliability:

This change does not affect fit, form, function and reliability.

Product Identification (this section will describe how to identify the changed material)

The parts that will be assembled with new die will be identified by Date Code.

Summary of Supporting Information:

Qualification will be performed per Industry Standard Test Methods. See attached Qualification Results.
