

***Helacon Plus Series push-in wire connectors  
to be replaced with NEW HelaCon Plus Mini***

Dear Colleagues:

July 5, 2017

Effective later this year, HellermannTyton will cease production on the **HelaCon Plus** push-in wire connector. The entire product family will be replaced with a corresponding **HelaCon Plus Mini** product line beginning later this summer.

The HelaCon Plus Mini Series carries the same features and benefits as the original version, but has a footprint that is 40% smaller. The entire product family will be in stock and available for immediate shipment in August.

A full marketing launch introducing the new Minis will commence in August, including brochures, price lists and sample packs.

The transition to the new HelaCon Plus Minis will require the assignment of new part and item numbers.

**Orders for Existing HelaCon Plus**

Customer orders will be accepted on the original HelaCon Plus series until September 22, 2017, with lead-times at 98 days if stock is not available in Romeoville. Shipments will continue until inventory has been depleted or March 31, 2018, whichever occurs first.

Please communicate this plan with customers in your territory so a smooth transition into the new Minis can occur. Or, allow them to place orders prior to the deadline noted above. A customer listing is attached.

The following part numbers are affected by this change:

148-90000	HECP-2	Yellow
148-90001	HECP-3	Orange
148-90002	HECP-4	Clear
148-90003	HECP-5	Blue
148-90004	HECP-6	Purple
148-90005	HECP-8	Black
148-90024	HECP-2B	Yellow
148-90025	HECP-3B	Orange
148-90026	HECP-4B	Clear
148-90027	HECP-5B	Blue
148-90028	HECP-6B	Purple
148-90029	HECP-8B	Black
