

## **Global Change Notification (GCN)**

Product Family	Mizu-P25	10645075	
		GCN Number	
Series	52213, 52266	August 05, 2014	
		Date Issued	
Reason For Change	Change Construction Or Material		
Change Description	This is to inform you about the color change of seal stopper, an inner part for housing assembly products 52213 and 52266(Mizu-P25). The color is changed in order to differentiate the part from housing. Currently, a housing and a seal stopper use the same color, which makes it difficult to visually find the seal stopper's existence. By changing the color of the material, the seal stopper will be easily detected and it will prevent the part from being missed in assembled product. First Article Inspection will be conducted. There will be no significant influence on performance of the finished goods. The implementation date is scheduled on 5th Feb, 2015 (The date can move before 5th Feb, 2015 in order to improve product quality). The related finished goods are 522130211and 522660211.		
Part Numbers Affected	Please refer to CustomerPartList.csv attached to e-mail message.		
Reason For Short Notice Exception			
Assessment Of Change (How Product Will Be Qualified & Validated)	First Article Inspection will be conducted. There will be no siginificant influence on product.
