Change Description	Dear Molex Customer, The purpose of this letter is to inform you that Molex will be purchasing and testing an alternate source for the C7035 raw material used on the CTX50 (560023) terminal. This will give us an additional raw material vendor and is the exact same raw material as we currently use. The material will be processed, slit, and plated by the same vendors we currently use. We will perform the following tests once we have terminals stamped to assure the same level of performance – 1. Terminal to terminal insertion / extraction force 2. 0.35mm2 Crimp optimization min/max CCH only 3. Dimensional confirmation per control plan
