|   |   | Date Issued     |  |
| Reason For Change   | Change In Packaging Specifications  |                 |  |
| Change Description  | This letter is to inform you of a packaging change on guided Impact 100 Ohm 2<br>Pair backplane headers. The finger hole size in the base of the tray is being<br>reduced to prevent parts at the end of the pocket row from sliding out of pocket<br>into the finger hole, which in turn damaged the tails during shipping and<br>handling. This is not an issue for unguided headers.<br>There is no changes to the SPQ or MOQ due to this change. Qualification Test<br>will be conducted to qualifed the new packaging. |                 |  |
