

PRODUCT CHANGE NOTIFICATION

PCN#: TIES AND TERMINALS

20190319-StrongHold

ISSUE DATE:

20190319

IMPACTED REGIONS:

NA

EMEA

LATAM

AP

REASON FOR CHANGE:

DISCONTINUATION

OTHER

DESCRIPTION OF CHANGE: (Not Required for discontinuation)

The following StrongHold cable ties now include UL 181 certification (in addition to the UL 62275 certification these cable ties already possess):

S18-175 S21-175 S24-175 S31-175

These ties are now covered under UL category ALKW (Air Duct and Air Connector Closure Systems) per UL 181. As such, these ties have now been subjected to both ANSI/UL 181B and ANSI/UL 181C, both of which cover ANSI/UL 723 "Test for Surface Burning Characteristic of Building Materials" and ANSI/UL 2043 "Fire Test for Heat and Visible Smoke Release for Discrete Products and Their Accessories Installed in Air-Handling Spaces." The key take-away from this is that these newly listed cable ties have been found to be suitable for use in plenums in accordance with the "International Mechanical Code", "Uniform Mechanical Code", and ANSI/NFPA 90A "Installation of Air-Conditioning and Ventilating Systems."

Error Correction: Maximum Bundle Diameter for S18-175-L and S18-175-L0 cable ties

Part numbers S18-175 were incorrectly stated as Max. Bundle Diameter of 5.20" (132mm). The correct information on this size cable tie is 4.92" (125mm). Corrected info is being addressed as a running change.
