Product Change Notification

1. ECR #: 168943
Notification #: 408

2. Date of Announcement: July 20, 2018

3. Series:

- TSM - .025 SQ. TERMINAL STRIPS

4. Part #'s Affected

- TSM-103-XX-XXX-DV-X-XXX-P
- TSM-103-XX-XXX-DV-X-XXX-P-TR

5. Description of Change:

Change the 03 position connector pick and place pad from .157x.250 to .200x.250

6. Method of Identifying Change

New pad is .200" long where as old pad was .157" long. Both old and new pad have the same width at .250"

7. Reason for Change:

Change is being made to improve pick and place pad placement. The change is being made for -P option for -03 position with -TR packaging.

8. Impact of Change on Form, Fit, or Function:

- Form - Pick and place pad option---03 position will use new pick and place pad. This is a rolling

change and there is some opportunity for mixed inventory on a limited basis.

9. Projected Implementation Date: October 06, 2018

Disclaimer

Please review the change notification details listed above for specific information regarding the nature and timing of the change. While Samtec has taken precautions to ensure this change is not detrimental to your application, each application can be unique and therefore customers should consider the effect of the change on their specific application.

Samtec has taken efforts to ensure that all users of this product who have requested change notifications have been informed. However, you should assume that this is the only notification that will be sent and you, as the recipient, must determine how to communicate this information to your organization(s) and customer(s) as appropriate. If you wish to opt out of receiving Samtec Engineering Change Notification emails, please contact CustomerECN@samtec.com. Due to technical progress, specifications are subject to change without notification and it is recommended to provide an alternative contact when opting out.
