

SIERRA WIRELESS PRODUCT CHANGE NOTICE

OVERVIEW

DATE ISSUED:	<i>Mar 20,2020</i>	TRACKING NUMBER:	4134762
ISSUED BY:	AirPrime Product Management		
PRODUCTS AFFECTED:	<i>MC7430, MC7455, EM7430, EM7455</i>		
SKUS AFFECTED:	All affected SKUs		
BULLETIN:	Label change – CE Mark Removal		
URGENCY:	Normal		
FOR DISTRIBUTION TO:	<i>Customer using SKU affected</i>		

Summary

Remove CE marking on all affected SKUs.

Details

The Radio Equipment Directive (RED) applies to products that are placed on the European market. Sierra Wireless modules supplied to integrators for incorporation into a final product are not considered as being placed on the market and therefore are not within the scope of RED. As a result, Sierra Wireless will not affix the CE marking on these modules.

Sierra Wireless will continue to perform testing to the applicable requirements of the RED and will provide associated test reports to integrator customers and test houses/ Notified Bodies to facilitate the CE marking of devices integrating these modules.

Timeline

The CE mark label change will be a rolling change. The SKU update will be implemented and shippable by the end of April.
