**Reason:** Ease of handling

**Description:** To facilitate handling of the 0.5mm thick TG-A1250, TG-A1450 and TG-A1660, we have reduced the maximum sheet size from 325x325mm to 250x250mm. As a result, the 160x160mm parts (1/4 sheets) and the 100x100mm sheets are also changing to 125x125mm to increase the yield efficiency. The new parts are identical material, just a different sheet size.
