End of Product Life Notification

November 18th, 2022

This notification applies to the following product -

ZUP Product Series

Dear customer / valued partner

TDK-Lambda has received an EOL for the ZUP product series, including all models. Consequently, we are offering a last time buy for this product.

ZUP series orders have been declining over the past several years. The low orders, increasing cost of maintaining ZUP production due to increasing number of critical components EOL notifications, and aging production equipment have all reached the point that declaring EOL of ZUP series is necessary after 23 years from its launch. Please refer to the below for the EOL schedule and recommendation for replacement.

We recognize that as a past or current customer of these products, you may require additional units until substitution testing is complete or for service spares. We are offering a last time buy and ship opportunity as detailed in the table below:

End of life announcement	November 18 th 2022
Date last orders can be received	September 1 st , 2023
Last shipment date	March 31 st , 2024, based on the current lead-time of 23 weeks.

Recommended replacement: ZUP series has been manufactured by TDK-Lambda since 1999. Over the past several years, the newer Z+ series gradually replaced ZUP, having improved performance, additional features and smaller footprint making it the recommended replacement for the ZUP series. Our sales and technical teams will continue to support any need during the EOL process.

Please understand that these orders would be non-cancellable and non-returnable and cannot be counted towards future stock rotations. The standard warranty period, service and conditions will apply for product sold during this last time buy notice.

Please contact our technical support for potential alternate products at 1-800-526-2324 or email powersolutions@tdk.com.
