1 Affected Products

Product in End-of-Life	Successor Product
THEO-P173-01A	VERA-P173-00A
THEO-P173-02A	VERA-P173-00A

2 Reason for discontinuation

u-blox has decided to announce the end-of-life of THEO-P173-01A and THEO-P173-02A. The reasons for the EOL are:

- VERA-P1 modules are successors. These modules are smaller and more cost-effective than THEO-P173 modules.
- Production issues: Long production time in the current production site, forcing u-blox to move the production to another site.
- Market demand for the modules that are smaller in size.

3 Recommendation

It is recommended that customers migrate their THEO-P173 designs to the successor product - VERA-P173. VERA-P173 provides all the features of THEO-P173, in a smaller form factor. VERA-P173 is produced in an automotive grade certified production site, according to u-blox automotive grade guidelines.

4 Schedule

Last Time Buy Date	March 14, 2018	All orders placed after the notification date are non-cancelable and non-returnable (NCNR) .
Last Shipment Date	Planned for November 30, 2018. Please note that due to long delivery time for certain components, the delivery of products ordered can be up to 30 weeks from the order confirmation.	All orders placed after the notification date are non-cancelable and non-returnable (NCNR) .
