

Product Discontinuation for LP 5.0x/90, LP 5.0x/180 and LP 10.xx/90

Dear Sir or Madam,

the products listed below are intended to be discontinued and will no longer be available after a transitional period. Please pass on this product information to your employees and possibly to your customers. All of these product discontinuations have been made to support our continued commitment for improvement and ongoing product development.

1. Initial situation

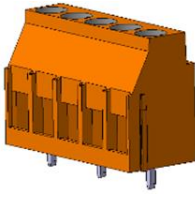

Due to our cancellation strategy that LP 5.0x/90, LP 5.0x/180 and LP 10.xx will phase out in the end of 2018 out of our product portfolio. Therefore, it's suggested to inform the relevant customers this discontinuation.

2. Affected items / follow-up

It's recommended using LL 5.0x/90, LL 5.0x/180 and LL 10.xx as the follow-up for the affected products. The detailed articles with follow-up can be found in a separate spreadsheet.

Both products have the same pin layout, overall dimensions & electrical / mechanical performance. A detailed comparison can be found in the attached presentation (which of course you can pass on to your customer).

Below are the major differences between LP and LL:

Discontinued items	Follow-up items
 LP 5.0x/90	 LL 5.0x/90
 LP 5.0x/180	 LL 5.0x/180
 LP 10.xx/90	 LL 10.xx/90

- Flammability class according to UL 94: V2
- Allows marking with DEK 5 marker
- Flammability class according to UL 94: V0
- Allows direct printing or marking with KSW marker

3. Schedule / Availability

As an alternative, LL series has been on the market for a decade and it has been ordered from a few customers since its sales release. LP 5.0x/90, LP 5.0x/180 and LP 10.xx/90 will be cancelled officially in the end of 2018, in this case the last order is suggested before 31.12.2018.

For further questions or if you need any additional assistance or information, please contact your local sales office directly. All contacts for sales representatives are available here: <http://www.weidmueller.com/contact>

Best regards

Product Management
