## **FEATURES:**

- Compact 4.75 x 8.0" x 2.0" Size IEC 62368-1 2nd ed. Certification
- 2 Year Warranty
- Universal 85-264V Input
- 1-4 Tightly-Regulated Outputs
- High Efficiency
- 0-70°C Operating Temperature
- IEC 60601-1 3rd ed. Medical Cert.
- IEC 60601-1-2 4th ed. EMC
- Class B Emissions per EN55011/32 • Optional Remote Inhibit/Enable
- Optional Power Fail Warning
- Optional Perforated Cover

## ORDERING INFORMATION

Consult factory for alternate output configurations. Consult factory for positive, negative or floating outputs. Please specify the following optional features when ordering:

CO - Cover OVP - Overvoltage Protection PF - Power Fail I/O - Isolated Outputs RE - Remote Inhibit TS - Terminal Strip

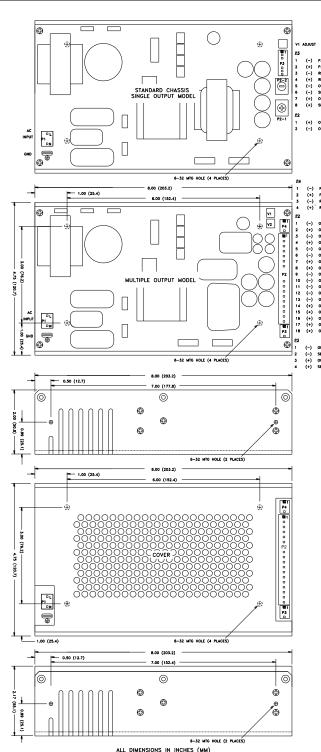

OUT	PUT SPECIF	FICATIONS
Total Output Power(1)	150W	Convection Cooled(18)
(See Derating Chart)	225W	300LFM Forced-Air Cooled(15)
Output Voltage Centering	Output 1:	$\pm~0.25\%$ (All outputs at 50% load)
	Output 2:	$\pm 0.25\%$ (X0XX), $\pm 5.0\%$ (X1XX)
	Output 3:	± 2.0%
0.1.17/114115	Output 4:	± 2.0%
Output Voltage Adjust Range	Outputs 1-2:	95 - 105% (X0XX) 95 - 105% (X1XX)
	Output 1: Output 1:	85 - 105% (X1XX) 85 - 105% (1001, 4001)
	Output 2:	85 - 105% (4002, 4003)
Load Regulation	Output 1:	0.5% (10-100% load change)
· ·	Output 2:	
	(XOXX)	0.5% (0-100% load change)
	(XIXX)	5.0% (10-100% load change)
	Output 3: Output 4:	2.0% (0-100% load change) 2.0% (0-100% load change)
Source Regulation	Outputs 1 – 4:	0.5%
Cross Regulation	Outputs 2:	0.2% (X0XX), 0.5% (X1XX)
3	Output 3:	2.0%
	Output 4:	2.0%
Output Noise	Outputs 1 - 4:	1.0%
Turn on Overshoot	None	
Transient Response Voltage Deviation	Outputs 1 – 4	
Recovery Time	5.0% 500μS	
Load Change	50% to 100%	
Output Overvoltage Protection	Output 1:	110% to 150%
(Optional)	Shuts down all o	utputs
	Cycle input to re	
Output Overpower Protection	250 W Min., Out	
Output Oversurrent Protection	110% Min., Outp	n/off, auto recovery
Output Overcurrent Protection Hold Up Time		V Output, 120V Input
Start Up Time	3 Seconds	V Output, 120V Input

## **CE-225 SERIES MECHANICAL SPECIFICATIONS**

## **APPLICATIONS INFORMATION**

- Each output can deliver its rated current but Total Output Power must not exceed 150 or 225W, as determined by the cooling method.
- Generally, adequate cooling is provided when semiconductor case temperatures do not exceed 70°C rise and transformer temperature does not exceed 60°C rise at any specified ambient temperature.
- Sufficient area must be provided around power supply to allow natural movement of air to develop in convection-cooled applications.
- This product is intended for use as a professionally-installed component within information technology, industrial, and medical equipment and is not intended for stand-alone operation.
- A minimum load of 10% is required on Output 1 to ensure proper regulation of remaining outputs.
- This product includes only one fuse in the input circuit. In consideration of Clause 8.11.5
  of IEC 60601-1:2005, a second fuse may be required in neutral conductor of the end
  product.
- Peak-to-Peak Output Ripple and Noise is measured directly at the output terminals of the power supply, without the use of the probe ground lead or retractable tip (tip-and-barrel method), 20 MHz bandwidth.
- 8. This product was type-tested and safety-certified using the dielectric strength test voltages listed in Table 6 of IEC 60601-1:2005. In consideration of Clause 8.8.3, care must be taken to insure that the voltage applied to a reinforced insulation does not overstress different types and levels of insulation. Primary and secondary-to-ground capacitors may need to be disconnected prior to performing a dielectric strength test on the power supply or the end product. It is highly recommended that the DC test voltages listed in DVB.1, Annex DVB of UL 60601-1 1st Edition are not exceeded during a production-line dielectric strength test of the assembled end product. Please consult factory for further information.
- This power supply has been safety-approved and final-tested using a DC dielectric strength test. Please consult factory before performing an AC dielectric strength test.
- 10. Remote-Sense terminals may be used to compensate for cable losses up to 250mV. The use of a twisted pair, decoupling capacitors and an appropriately-rated low-impedance capacitor connected across the load will increase noise immunity.
- 11. Maximum screw penetration into chassis mounting holes is 0.250 inches.
- 12. To comply with emissions specifications, all four mounting hole pads must be electrically connected to a common metal chassis. Chassis/Cover option is recommended. Refer to Operating Instructions for additional information.
- Common RF shielding precautions may need to be taken to assure emissions compliance. Refer to Operating Instructions for additional information.
- Power Fail (AC-Good) feature provides a logic-low warning signal from an open collector transistor output 10ms prior to loss of output from AC failure, 5V/10mA.
- Forced-Air cooling rating of 225W requires an air speed of 300LFM flowing past a point one inch above the main isolation transformer.
- 16. Derated 20% when convection cooled.
- 17. Rated 30A maximum when convection cooled only.
- 18. Free-Air convection cooling, 150W maximum output power.

## **MAXIMUM OUTPUT POWER vs. AMBIENT TEMPERATURE**

	C	ONNECTOR SPECIFICATIONS
	AC Input	0.156 friction lock header mates with Molex 09-50-3031 or equivalent crimp terminal housing with Molex 08-50-0189 or equivalent crimp terminal.
P2	DC Output (Single)	6-32 screw down terminal mates with #6 ring tongue terminal.
P2	DC Output (Multiple)	0.156 friction lock header mates with Molex 09-50-3181 or equivalent crimp terminal housing with Molex 08-50-0189 or equivalent crimp terminal.
G	Ground	0.187 quick disconnect terminal.
P3	Option/Sense (Single)	0.100 friction lock header mates with Molex 22-01-2087or equivalent crimp terminal housing with Molex 6459 or equivalent crimp terminal.
P3/P4	Option/Sense (Multiple)	0.100 friction lock header mates with Molex 22-01-2047or equivalent crimp terminal housing with Molex 6459 or equivalent crimp terminal.
