V708-75 BROWN FLUOROELASTOMER (FKM)**

GENERAL PROPERTIES

Boyd Fluorocarbon (FKM) materials utilize the best ingredient formulations from leading industry suppliers including Chemours (Viton®), Solvay, and Daikin. V708-75 has a temperature range of -10F to +480F and can withstand exposure to +600F for brief periods of time. The relatively high level of fluorine allows for exceptional resistance to weather, compression set and chemical attack over wide variety of fluids.
