### SmartPro 230V 2200VA 1920W Line-Interactive Sine Wave UPS, 2U, Extended Run, WEBCARDLX, LCD, USB, DB9

#### MODEL NUMBER: SMX2200XLRT2UN

Offers complete line-interactive power protection for professional applications, including retail, casino and hotel management.

#### Features

2.2kVA/1.92kW/230V Battery Backup for PC Networks, Security Systems or Digital SignageThe SmartPro® line-interactive SMX2200XLRT2UN UPS system with AVR provides reliable battery backup and AC power protection against blackouts, brownouts, overvoltages, surges and line noise that can damage valuable electronics or destroy data. The eight-outlet 230V battery backup with 0.9 power factor is ideal protection for small networks, wiring closets, security systems, telecom, high-end PC gaming, digital signage equipment and other professional applications, including retail, casino and hotel/motel management.

**Reliable, Expandable Battery Backup Keeps You Operational Through Power Outages**The fieldreplaceable, hot-swappable internal battery provides 11.9 minutes of support at half load (960W) and five minutes at full load (1920W), allowing you to work through short power failures and giving you enough time to safely save files and shut down your system in case of a prolonged blackout. For mission-critical applications demanding scalable extended runtime, the UPS supports external battery packs, such as Tripp Lite's BP48V27-2US (sold separately).

**WEBCARDLX Network Interface Offers 24/7 Remote Access for Monitoring and Control**The built-in WEBCARDLX with the latest version of PowerAlert Device Manager firmware (PADM20) provides enhanced remote management capabilities, including customizable dashboard graphs to fit user preferences. The PADM20 upgrade and Tripp Lite's PowerAlert Element Manager (PAEM) software form a powerful tool for expanding maintenance functions in large installations, including firmware update checks and backup and restoration of device configurations. PADM20's Auto Probe feature allows a UPS with switched loads to automatically reboot devices if a network communication failure is detected.

**8 Outlets Protect Your Connected Components**Eight C13 outlets provide battery backup, 350 joules of surge protection and voltage regulation for your crucial components. Two independently switched single-outlet load banks enable both scheduled and real-time remote rebooting and load shedding.

Automatic Voltage Regulation (AVR) Corrects Low- and High-Voltage ConditionsAVR protects your equipment from incremental hardware damage, data loss and performance problems caused by brownouts and overvoltages. The SMX2200XLRT2UN can correct brownouts as low as 158V and overvoltages as high as 278V back to nominal 230V power continuously, all while keeping the battery fully

#### Highlights

- Protects equipment against blackouts, brownouts, overvoltages, surges and line noise
- Keeps AC power running during blackouts to allow time for file saves and safe shutdown
- Maintains continuous 230V nominal output during brownouts and overvoltages
- Pre-installed WEBCARDLX with latest version of PADM20 supports Auto Probe feature
- Easy-to-read LCD allows realtime monitoring of voltage, battery status and other data

#### Applications

- Protect your small network server and other network components against power surges, line noise, brownouts, overvoltages and blackouts
- Operate essential equipment during short-term power outages using battery backup power
- Shut down desktop PCs and other equipment without data loss during long-term power outages
- Connect high-end security systems, casino gaming machines or digital signage in a small network

#### Package Includes

- SMX2200XLRT2UN 230V 2200VA 1920W Line-Interactive UPS with 8 Outlets
- WEBCARDLX network management card
- USB cable
- DB9 cable
- EPO cable
- (3) C13-to-C14 AC power cords
- Rack-mounting hardware
- Owner's manual

1000 Eaton Boulevard Cleveland, OH 44122 United States

charged and ready to take over in case of power failure.

**Premium Protection from EMI/RFI Line Noise Helps Your Equipment Perform Better**This UPS system filters out disruptive electromagnetic and radio frequency interference that can inflict hardware damage or data loss. This EMI/RFI filtering also helps your connected components perform better and last longer.

**Designed for High Efficiency to Help You Save Money and Protect the Environment**A 98% efficiency rating reduces BTU emissions, energy consumption and, ultimately, your energy costs.

Silenceable Alarm and Easy-to-Read LCD Keep You Informed Around the ClockThe front-panel LCD lets you monitor important data, such as load level, power factor, voltage, battery charge and estimated runtimes. It rotates for comfortable viewing in both rack and tower configurations. The audible alarm sounds for power failure, low battery and overloads. You may silence it using the built-in switch or disable it.

Advanced Communications Ports Allow for Automatic Saves and ShutdownsRS-232 and HIDcompliant USB ports connect to a computer running Tripp Lite's free downloadable PowerAlert® software to enable safe unattended file saves and system shutdown in case of a prolonged power failure. The EPO port supports emergency shutdown in large facilities. Cables are included.

Versatile Installation OptionsHardware is included for mounting the Tripp Lite SmartPro UPS system in 2U of space in an EIA-standard 19-inch 4-post rack. Using optional mounting accessories (sold separately), you can adapt the SMX2200XLRT2UN for 2-post (2POSTRMKITWM), front-rail (UPSHDEARKIT), 4-post short-depth (4POSTRAILKITWM), tower (2-9USTAND) or wall mounting (2POSTRMKITWM).

### **Specifications**

OVERVIEW			
UPC Code	037332256430		
UPS Type	Line-Interactive		
INPUT			
Rated input current (Maximum Load)	10.7A		
Nominal Input Voltage(s) Supported	230V AC		
UPS Input Connection Type	C20 inlet		
UPS Input Connection Description	IEC320-C20 input connection accepts a variety of detachable cordsets to match country or site-specific wall receptacles		
Input Circuit Breakers	15A		
Input Phase	Single-Phase		
OUTPUT			
Output Capacity (VA)	2200		
Output Capacity (kVA)	2.2		
Output Capacity (Watts)	1920		
Output Capacity (kW)	1.92		

[	
Power Factor	0.87
Nominal Voltage Details	230V nominal output in battery mode
Frequency Compatibility	50 / 60 Hz
Frequency Compatibility Details	Automatic frequency selection
Output Voltage Regulation (Line Mode)	-15%, +6%
Output Voltage Regulation (Battery Mode)	+/- 5%
Included Output Power Cables	Includes 3 C13 to C14 output power cables
Load Management Receptacles	Two switchable single-outlet C13 load banks
Hot-Swap PDU options	PDUBHV20 (2U / 6 C13, 2 C19 outlets)
Output AC Waveform (AC Mode)	Sine wave
Output AC Waveform (Battery Mode)	Pure Sine wave
Nominal Output Voltage(s) Supported	220V; 230V; 240V
Output Receptacles	(8) C13
Individually Controllable Load Banks	Yes
BATTERY	
Battery Type	Valve Regulated Lead Acid (VRLA)

Severe Undervoltage Correction	Voltage boost of 24% applies when input voltage is between 158-182V			
USER INTERFACE, ALERTS & CONTROLS				
Front Panel LCD Display	Front panel LCD information and configuration screen offers detailed UPS and site power status and operating data, plus configuration of voltage, operating mode, alarm function and a variety of additional options (see manual for detailed LCD configuration and monitoring options)			
Switches	3 pushbutton switches control OFF / ON power status, MODE selection and MUTE / ENTER control functions			
Alarm Cancel Operation	Power-fail alarm can be temporarily silenced using alarm-cancel switch; silent mode alarm configuration option available			
Audible Alarm	Audible alarm indicates UPS startup, power-failure, low-battery, overload, UPS fault and remote shutdown conditions			
SURGE / NOISE SUPPRESSION				
UPS AC Suppression Joule Rating	350			
UPS AC Suppression Response Time	Instantaneous			
EMI / RFI AC Noise Suppression	Yes
