This 45U rack features heavy-duty cold-rolled steel construction with a black powder-coated finish for durability. It supports stationary loads up to 1000 lb. The SR4POSTAA comes with all the hardware required for assembly and has a self-squaring design with bolt-down provisions. For high-density applications, multiple units can be bolted together side by side. The SR4POSTAA is compliant with the Federal Trade Agreements Act (TAA) for GSA Schedule purchases.

The open design of the SR4POSTAA provides unobstructed airflow and easy access to equipment and cabling.
