Part Number: 181-21006

Strong fingers prevent unwanted breaking.

Fingers are easily deflected outward, allowing ready positioning of the

wires within the slotted wall duct.

Restricted opening design in the finger of the duct helps keep wires in

place.

Restricted opening prevents unintended removal of wires and permits

any individual wire to be traced without disconnection.

Supplied with mounting holes to streamline installation.

Optional covers enhance protection and appearance.

Product Description HellermannTyton Slotted Wall Wiring Duct features break-away

fingers that provide additional access for wire leads. Each section of the duct is provided with two score lines. The upper score line is used to break away fingers when a greater opening is required. The lower

score line allows the sidewall to be smoothly cut for joints and T's.
