

# SELV IP42 ( E UK

### Features

- Constant current design
- · Protections:Short circuit / Over voltage
- · Fully isolated plastic case
- · Small and compact size
- · Cooling by free air convection
- · Class Ⅱ power unit, no FG
- No load power consumption <0.5W</li>
- · IP42 design
- Suitable for LED lighting and moving sign applications
- 100% full load burn-in test
- · Low cost / High reliability
- · 2 years warranty

## Applications

 Suitable for LED related fixture or appliance (such as LED Decoration or Advertisement devices)(Note.7)

## Description

APC-16E series is one 16W AC/DC constant current mode single output LED power supply. It accepts input 180~264VAC and provides two models with different output current, 350mA and 700mA, respectively, that the small wattage LED applications employ the most frequently. Exploiting Class II design (without FG pin) and adopting the 94V-0 flame retardant plastic enclosure, APC-16E ideally fits the entry-level LED applications.
